ANNUAL SPONSORSHIP

The Washington, D.C. Chapter of the American Society of Plumbing Engineers (ASPE) invites your organization to support our industry through annual sponsorship. Our chapter provides education, networking, and technical resources to plumbing professionals across the region. Sponsorship is a great way to promote your company, support our mission, and engage with key decision-makers in the field.

PLATINUM SPONSORSHIP - \$3000

- Golf Foursome + Tee Marker
- Newsletter Ad (full page)
- Website link and logo
- 8 vouchers for technical meetings (1 per meeting)
- 2 tabletops at meetings throughout the year
- 1 tabletop at Industry Night
- 2 tickets to Winter Social/Special Event
- Ability to add swag to new member welcome bag
- Logo (huge) on banner displayed at each meeting/event
- Social Media spotlight throughout the year

SILVER SPONSORSHIP - \$1000

- Newsletter Ad (half page)
- Website link and logo
- 2 vouchers for technical meetings (1 per meeting)
- 1 tabletop at meetings throughout the year
- Ability to add swag to new member welcome bag
- Logo (medium) on banner displayed at each meeting/event

GOLD SPONSORSHIP - \$2000

- Golf Foursome
- Newsletter Ad (half page)
- Website link and logo
- 4 vouchers for technical meetings (1 per meeting)
- 1 tabletop at meetings throughout the year
- 1 tabletop at Industry Night
- 1 ticket to Winter Social/Special Event
- Ability to add swag to new member welcome bag
- Logo (large) on banner displayed at each meeting/event

BRONZE SPONSORSHIP - \$500

- Newsletter Ad (business card size)
- Website link and logo
- Ability to add swag to new member welcome bag
- Logo (small) on banner displayed at each meeting/event

A LA CARTE

Golf Foursome + Tee Marker	\$750	1 ticket to Winter Social	\$50
Golf Foursome	\$650	1 ticket for technical meeting (member)	\$40
Golf Tournament - Sponsor a Hole	\$150	1 ticket for technical meeting (non-member)	\$50
Golf Tournament - Individual	\$175	Full page newsletter ad	\$750
1 tabletop at meeting	\$150	Half page newsletter ad	\$500
1 tabletop at Industry Night	\$150	Business Card newsletter ad	\$250
		Newsletter page upgrade	\$250

WHY SPONSOR?

- Direct visibility with plumbing engineers, designers, and contractors
- Brand recognition at our in-person and virtual events
- Support professional development and code education in your community

For more information, contact: [Chuck Potter](#) or [Joe Niedzielski](#)

Schedule of Meetings

DATE	Topic	Speaker
SEPT 16	Engineering Ethics And Dispute Resolution	Rebecca Bowman
OCT 14	Med Gas Design 101 and NFPA-99 Code Changes	Niki Patel
NOV 18	Hot Water Recirculation Systems	Engineer Presentation – Chuck Swope (Mueller)
DEC 16	Everything We Do Wrong	Panel – moderator, code reviewer, Contractor, Sr. Engineer
JAN 27	Industry Night	Local UA5
FEB 17	Rainwater Harvesting	Engineer Presentation – Dejan Tadic (Setty)
MAR 10	Fire Protection and Firefighting Operations	E.J. Henninger / PM Group
APR 21	Fire Protection – changes to the 2025 edition of NFPA-13	Ken Isman (UMD)
MAY 19	Schematic Design	Engineer Presentation – Joe Niedzielski (2RW)

If you have a specific topic, speaker, or case study you would like to see included in our program, please let us know. Likewise, if you or your firm would be interested in presenting at one of our sessions, we encourage you to share your availability.

PRESIDENT REPORT

Dear ASPE DC Members,

As we wrap up another ASPE DC program year, I find myself reflecting on what an incredibly strong and engaged chapter we have.

This season brought great technical content, strong attendance, and—just as importantly—a real sense of community. From packed monthly meetings to the conversations that happen before and after them, it's clear that this chapter continues to be a place where professionals come not just to learn, but to connect.

I want to thank our Board, who keep everything moving behind the scenes. These programs don't happen by accident—they're the result of a lot of time, effort, and commitment from people who care deeply about this industry and this chapter.

A special thank you as well to our sponsors. Your continued support allows us to elevate the quality of our programs and create opportunities for our members that wouldn't otherwise be possible.

On a personal note, it has been a privilege to serve as President of ASPE DC. I've had the opportunity to work alongside some outstanding professionals and even better people. I'm proud of what we've accomplished together, and I'm confident the chapter is in a great position moving forward.

As I step aside, I'm excited to see the next leadership team build on this momentum. If you've ever thought about getting more involved, I'd strongly encourage it—this chapter is only as strong as the people who participate in it.

Enjoy the summer, and I look forward to seeing you all again next season.

IMPORTANT UPCOMING EVENTS!

Sept 17 - ASPE DC Chapter 36th Annual Golf Tournament

Thank you for a great year.

Cheers!

Chuck Potter, CPD, GPD, LEED Green Associate
Department Head/Senior Plumbing Engineer

VICE PRESIDENT- TECHNICAL REPORT

Thank you to everyone who joined us for last month's technical meeting. We were fortunate to have Ken Isman return to present on the latest NFPA 13 updates related to sloped roof design. As expected, Ken delivered an outstanding presentation. The topic sparked a great deal of meaningful discussions among attendees, with many sharing questions and real-world experiences. It was an engaging session that reinforced the importance of staying current with code developments and how they impact our designs.

Building on that momentum, we are excited to announce our upcoming May technical meeting featuring DC's own, Joe Niedzielski. Joe spoke last year on "What We Do Wrong," which was extremely well received and left many asking for his return. This year, he will be presenting "Time to Deliver: Schematic Design." His presentation will focus on the schematic design phase of projects, specifically the systems, coordination, and information that engineers should be prioritizing early on, and how to best position projects for success as they move forward. Joe's practical approach and relatable insights promise to make this another valuable and engaging session.

As this season comes to a close, I would also like to thank the chapter for the opportunity to serve as your VP Technical and lead this year's technical meetings. It has been an incredible experience, and I am grateful to have contributed in this role to an organization that has done so much for my development. I look forward to continuing to serve the board, and I hope to do so as President if the chapter will have me.

VICE PRESIDENT- MEMBERSHIP REPORT

One of the best parts of ASPE DC is watching our chapter continue to grow through new members, new connections, and members who actively share the value of our organization with others. Every meeting, event, and conversation helps strengthen our community—and that growth starts with members like you inviting coworkers, industry peers, and emerging professionals to get involved.

As we wrap up the chapter meeting season, we're looking forward to one more great evening of education, networking, and community at our May Chapter Meeting on Tuesday, May 19th at Pinstripes in North Bethesda. This month, Joe Niedzielski will present on Schematic Design, and we have very high expectations for Joe's presentation...no pressure, Joe.

Meetings like these are a perfect example of the many benefits ASPE membership provides:

- Access to valuable technical education and industry expertise
- Opportunities to earn CEUs and continue professional development
- Networking with engineers, designers, contractors, manufacturers, and industry leaders
- Leadership and mentorship opportunities
- A welcoming community invested in helping one another grow professionally

But one of the most valuable things about ASPE can't be listed in a bullet point—it's the relationships. Whether you're a seasoned engineer, new to the industry, or somewhere in between, our chapter creates opportunities to connect with people who genuinely want to support each other's success.

That's why we continue encouraging members to bring a friend, coworker, or young professional to our meetings and events. Sometimes all it takes is one invitation for someone to discover a professional community that can help shape their career. If you know someone who could benefit from technical education, networking, mentorship, or simply meeting good people in the industry, this is a great meeting to introduce them to ASPE.

And while this may be our final meeting before summer, we already have another favorite event on the horizon—our ASPE DC Golf Tournament on September 17th. Whether you golf competitively, casually, or just drive the cart and network, it's always one of the best opportunities of the year to connect with fellow members and industry partners, and invite potential new members to join in the fun! Also, for anyone nervous about signing up because of their golf skills... don't worry. I can confidently say there's a very good chance you'll perform better than my team did last year – or at least play faster.

Thank you for continuing to support and grow ASPE DC. We look forward to seeing you in May—and hopefully meeting a few new faces along the way!

PLUMBING PLANS REVIEWER'S CORNER

By
David Bailey

Last month's review involves a Code Waiver request. The originally reviewed and approved drawing set shows the make and model of a 75-gpm capacity flow-based grease interceptor (VBGI) and a grease waste calculation of 51 GPM. The applicant submitted a dishwasher spec sheet during the review period indicating that rack dishwashing time cycle of 90 seconds and water usage of 1.09 gallons per cycle. The Code Waiver request indicated substituting the approved FBGI with the same make but different model (50 GPM capacity, 3950A03, 3" inlet/outlet connections). Was the waiver approved, disapproved, or simply archived for the Commission's records?

Per grease waste calculations, whenever a plan submission involving a commercial kitchen and no spec sheet is provided for a proposed dishwasher, then the default GPM is seven (7) when sizing a passive FBGI. Seven was reflected in the table, but there was a spec sheet indicating a flow rate less than 2 GPM that may have been ignored since the 75 GPM passive FBGI was initially proposed. Thus, the calculated flow rate ended up being 50 GPM or less, thereby the proposed 50 GPM is acceptable. Since this was not a Code violation, the waiver was simply archived once the Project Manager (a.k.a. Plumbing Plans Reviewer) revisited the formerly approved drawing and redlined the newly proposed 50 GPM passive FBGI and GW calculations whereby an updated approved version of drawing became record.

This month's review is the result of a waiver request whereby I stumbled onto an item totally unrelated to the Code violation. The following screenshots are taken from a natural gas riser diagram drawing that I found disturbing, no commentary was found per initial review.

GAS LOAD TABLE	
EQUIPMENT	LOAD
DOAS-1	120 MBH
DOAS-2	245 MBH
DOAS-3	245 MBH
WH-1	199 MBH
TOTAL LOAD	809 MBH
TOTAL LENGTH	200'
GAS LINE SIZE	2-1/2"

NOTES:

1. ALL VALUES BASED ON 2024 INTERNATIONAL FUEL GAS CODE.
2. MINIMUM REQUIRED PRESSURE IS 7" W.C. (1/4 PSI) AT THE EQUIPMENT OR 10"W.C. AFTER THE METER/REGULATORY ASSEMBLY WITH A TOTAL DEVELOPED LENGTH OF 200 FEET.
3. PIPE SIZES BASED ON TABLE (402).4(2) OF THE 2024 INTERNATIONAL FUEL GAS CODE AND SCHEDULE 40 METALLIC PIPE.
4. PROVIDE DRIP LEG AND UNION AT EVERY CONNECTION.

What comments could have been rendered?

Jee Elward

ASSE

6060

jelward@shermanengineering.com

Growing Healthcare Industry

The healthcare industry is growing rapidly and designing a facility that meets code requirements and owner preferences will be made easier after completion of this course.

Code Requirements

With the recent release of NFPA 99 2024, the ASSE 6060 is now one of the approved credentials for medical gas designers responsible for the sizing, selection, layout, and more for medical gas and vacuum systems.

Engaging the Facility AHJ

As Designers and Engineers, I'm sure you've been asked to make decisions for a project that are the responsibility of the owner. This course helps you navigate those conversations to avoid bearing that responsibility as the designer.

Professional Growth

With this credential, you can seamlessly transition into medical gas design with minimal support from supervisors, helping you become a true medical gas design expert

Class + Credential

Unlike other companies hosting this course, this class hosted by Sherman Engineering will include both the course led by Mark Allen, as well as the course exam, proctored by MGTC.

Don't Cut Corners on Data Center Protection

Reliable preaction systems provide effective fire protection while mitigating the chance of unintentional water discharge.

Featuring single and double interlock preaction configurations, the time and field proven **Model DDX** latching clapper valve sets the standard for the industry.

FM
Approved
as a factory
assembled
and tested
unit.

Now available with an integrated South-Tek Systems N₂-Blast® Nitrogen Generator, the **Model DDX PrePaK™** provides a compact "plug and play" cabinet-enclosed preaction system.

The durable link design of the **KFR Series** standard spray quick-response sprinkler makes it the ideal choice to help mitigate unintended sprinkler discharge.

Reliable's Product Technology Team brings over 350 years of combined fire protection industry experience. Contact us to discuss how Reliable products can benefit your projects:
